MISCELLANEOUS.

Later from Mexico.

By the arrival yesterday of the schr Virginia Antoinette, Capt Delville, in eight days from Tampico, we have received letters and verbal accounts, but no newspapers

Not a little excitement exists in the Northern Departments of Mexico, in relation to the Annexation question, and all sorts of threats against the United States are made, in case the treaty is ratified The consequence is, that the Americans are now frequently annoyed and insulted—they never were treated with any marked respect

Revolutions, in price current phrase, are dull in Mexico, no recent outbreaks having occured, many of the wise heads think that the political air is charged with pronunciamentos, or in other words that the present calm in the Atlantic departments portend are volutionary storm Arista, a popular officer, is said to be at Monterey, with plenty of materials about him or arising a commotion whenever a favorable opportunity offers, When he does declare—and there are those who think the day is not far distant—it will be for a general Federal Government. Urrea is in Sonora, one of the States towards the Pacific, and where the revolution against the General Government is still going on Report has it that Urrea has been peremptorily ordered to the city of Mexico, an order which he will obey or not, as it may best suit him

There are six regiments of troops at Tampico, miserably fed and clothed, and ready at any time to raise a revolt

Three or four of the Mier prisoners, who had escaped by digging under the walls of Perote, had been seen in the interior, making the best of their way towads Texas

The schooner Atlantic was the only American vessel in the port of Tampico She was to sail for this place on the 1st inst

It is reported that Santa Anna has called a new Congress, which was to convene on the 1st June Strong measures were to be taken in relation to the Texas question, and the difficulties with the French Government, in relation to the retail trade law, it was also supposed would occupy the attention of the members

A French fleet was spoken a few days since in the Gulf, on its way to Vera Cruz as was conjectured

Among the passengers by the Virginia Antonette was B M Norman, Esq author of Travels in Yucatan We understand that he has made several important discoveries in the way of ruins, &c in the region of the country back of Tampico, and has brought over many choice specimens of statuary, &c many of them of exquisit workmanship, which he is to present to the New York Historical Society We shall know more of his discoveries hereafter Mr N Brought despatches for our Government from China, which came overland from the Pacific

From Matamoras we have dates to the 13th ult brought by the schr Equity According to the Courier of last evening reports that about six hundred troops had entered that place from different parts They belong to what is called the Congress party These troops had been ordered to Mexico by Santa Ana, but were unwilling to go, and congregated at Matamoras, as above stated The fact had created some sensation Of the above troops, about four hundred have been stationed, for some time, at the mouth of the Rio del Norte, under Derasco

From Amos Kendall's Expositor

Everywhere the Same.

'Whig hatred of foreigners pervades the whole country, not of foreign lords and bankers, but foreign workingmen and Democrats Mr Clay would not permit them to have the same preemption privilege as Natives, the New York Whigs proscribe them when naturalized from the privileges of citizens and Philadelphia Whigs burn their houses and churches, and denounce, imprison, and murder them for defending themselves.'

The Journal of Commerce thus rebukes what it calls "this scandalous paragraph

Amos still thinks political capital is to be made, by pandering to the prejudices of foreigners especially foreign Catholics Amos is deceived Let him come here, or go to Philadelphia, the strong holds of foreign influence, and he will see that no party can even hope to succeed, in either of these cities, on the tack which he is taking It was precisely this courting of foreign votes by political demagogues, at the sacrifice of truth and important public interests, that caused the revolution in New York, and will do the same in Philadelphia at the next municipal election Amos Kendall is pleased to charge this revolution upon the Whigs He either does not know, or he misrepresents the fact The movement began in the rank and file of the Democracy No better evidence of this would be asked than the undeniable fact that last November, when the American Republicans first showed themselves in any considerable force, the two strongest Democratic Wards in this city, (the 11th and 9th) were completely revolutionized And the revolution has not gone backward since, but advanced

Our readers all remember the man with the "cork leg,' who commenced running and never stopped, and is still running and will run forever! The following, from the Lancaster Intelligencer, reminded us of the aforesaid cork leg

"When, on the ninth ballot, Polk was proclaimed our candidate by a unanimous vote, there arose from the assembled multitude inside of the hall a shout which told how truly it came from the very heart of the convention, it was a shout that drove out the demon, Discord a shout which, as it woke the echoes of that old Egyptian Hall, was caught up by the waiting Democrats outside who responded with an enthusiasm that spoke further than all the eloquence of the orator the joy they felt at this deliverance from the federal foe Every Democrat grasped his neighbor's hand and shook it with a hearty zeal, and the gravest and the oldest men gave way to the general joy And this glorious feeling did not stop here It crossed street after street of the monument became penetrated the country, rushed into every village and hamlet, and every where was welcomed by the same shout of joy—the same confidence in the result"—Philadelphia Forum

Piracy and Murder.

We recently mentioned the arrival in Nova Scotia of the English barque Saladin, under circumstances which rendered it probable that a horrid piracy and murder had been committed on board the vessel A part of the crew were arrested and examined before a magistrate, and the steward and cook have made a confession of their terrible crimes which is thus stated in the Halifax Journal

"The Saladin Capt M'Kenzie, sailed from Valparaiso on the 8th of Feburary, with thirteen persons, including Capt Fielding, a passenger, who had his ship seized at that place for smuggling, and his boy about fifteen years of age—Nothing remarkable occured from the time of sailing until the 10th of April, when Capt M Kenzie and Feilding had a serious quarrel, and did not afterwards speak to each other. Fielding then, it appears, laid the plan, in conjunction with four of the men now in Gaol, viz Johnston, Anderson, Jones and Hazen, to get possession of the ship, to accomplish which this series of the most deliberate and coldblooded butcheries were committed

On the night of the 14th of April the mate, *Byerly*, while lying upon the hencoop was murdered with an axe, and his body thrown overboard, the carpenter was then called from the half deck, where he slept, and as soon as he reached the deck was felled with an axe and also thrown into the sea, when Capt M Kenzie who was asleep in the cabin, but finding his dog by his side, became alarmed and returned—Fielding shortly after went to the cabin door and called out 'a man overboard;' which instantly brought Capt M'Kenzie from his berth, and while ascending the ladder and in the act of giving orders to put the ship about, was struck with an axe on the shoulder, he succeeded however, in reaching the deck and grappling with the man (Anderson) who struggling with him two others attacked him, and Fielding him with an axe, his body was disposed of in the same manner as those of the mate and carpenter

The watch below were called, and *James*, whose turn it was to take the helm, came up from the forecastle, and went aft for the purpose, when he reached his post the man at the wheel directed his attention to a rope on the taffrail, which he requested him to coil up, and while in the act of doing so, two of the mutineers pushed him overboard, the remainder of the watch, *Moffat* and *Collins*, were then sought for—the former had his brains dashed out, and the latter, while in the bows of the ship, was knocked over board by a blow from a mall In the morning, when the steward, *Galloway*, and the cook, *Carr*, came upon deck, they were compelled, in order to save their lives, to join the pirates

A few days subsequent to these horrible murders, Fielding not yet satisfied, and wishing to obtain a large share of the spoil by dipping his hands still deeper in human blood, proposed to some of his companions in guilt to get rid of the others, this being known to them he was tied hand and foot and thrown overboard—his son met the same fate a few minutes afterwards—While in possession of the ship the pirates destroyed nearly all the papers, letters, books, &c The fire arms and other weapons were thrown overboard, evidently still in the dread of each other, the money was divided, and the ship steered for the Gulf of St Lawrence, where after landing all the valuables, they intended scuttling her, but they were not permitted to carry out their design—the hand of Divine Providence has interfered, they were thrown upon our shores to receive the punishment which the laws of the country award to those guilty of such dreadful crimes'

Mr Adams and the Wilkesbarre Ladies.

The Ladies of the "Wilkesbarre Monumental Association, lately addressed a letter of invitation to Hon John Quincy Adams, to address them at their celebration of the Wyoming Massacre Anniversary, near Wilkesbarre on the 3d of July next to which Mr Adams replied in a most interesting letter, which we subjoin The following is an extract from their letter of invitation [Tribune

'One fact, however, must be well known to you, that the mass of those who fell on that day were New England men Who, then, so suitable to speak their eulogy as a New England man—and of all New England men to whom could we prefer our request with such union of feeling as to John Quincy Adams?

Mr Adams's Reply.

Mrs Sarah H Butler President of the Ladies' Wyoming Monumental Association, Wilkesbarre Pa

WASHINGTON, 18th May, 1844

HONORED LADY —I have received with deep and grateful emotions your letter of the 4th inst inviting me on the part of the Ladies Wyoming Monumental Association, to attend at the anniversary celebration of the massacre at the place on the 3d July, 1778 one of the ever memorable events of the war for Independence Besides the profound interest which the melancholy glory of that day has stamped on the memory of every American heart of age to have received its first impression when it occurred, your letter presents other motives not less urgent to the impulses of filial affection and cherished friendship, in its gracious allusions to both my parents, and to their participation in many of the great transactions in which it was their destiny to live, and in the attractive promise which it holds out of an opportunity to meet once more a cordially venerated friend, in the person of Mr Charles Miner, and of hearing from his lips the deeply interesting and authentic details of that historical epoch, which for a series of years he has been so indefatigably treasuring up for the instruction of after times Nor are the grand influences of the flowery season without their sentiments to visit that happy portion of Pennsylvania, where the fascinating beauties on the surface of the soil are but the index to the mineral riches beneath My imagination can scarcely conceive a more copious aggregate of inducements to accept with more than cheerful eagerness the tender of your congenial hospitality, and to secure for the enjoyment of my remaining days the actual vision of your paradise upon earth and the charm of personal interviews with its amiable inhabitants

But it is yet uncertain whether the Session of Congress will not be protracted beyond the anniversary day, and if it should be, an indispensable attendance upon public duties will detain me here If it should not, a precarious state of health and increasing infirmities enjoin upon me to return as speedily as possible to the retirement and repose of my own residence at the North—But on the day of the celebration I will be with you in the spirit, I will leave your invitation as a precious legacy to my children, and on that day, and to the end of my life, I will invoke the Father of Mercies that the lot of the Ladies of the Wyoming Monumental Association, and of all the dwellers in that region, may hereafter be as prosperous and happy as the day of their commemoration was calamitous and afflictive

JOHN QUINCY ADAMS

Congressional Affairs.

The Washington correspondent of the New York Express, under date of June 15, furnishes the following glimpses of affairs in Congress —

"Every thing has been hurried to the last few days of the session, and it is doubtful now what will pass and what will be lost *in transitu* between the two Houses, and what thrown upon the next session of Congress Every thing is hurry, bustle, and confusion The galleries are crowded with spectators, the lobbies full of people entreating Congress, in the name of mercy and justice, to hear their just petitions, and every thing upon the surface looks like inextricable confusion An escape, however, will, no doubt be found, and all the General Appropriation bills may be considered as passed Never did I see so little method or dignity of legislation as in the House of Representatives Many of the members are absent from the city—some are leaving by every conveyance, and it is difficult to keep a quorum of members present in the House Some of the young members are more troublesome than useful, and others thinking more of "Buncombe" than sober legislation The Chairman of the Ways and Means, upon whom the work falls hardest, and who is not in good health, looks like one afflicted, and members who cannot bring the House to act upon their own measures, seem to be sour and disappointed Two thirds of the bills reported during the session will not be acted upon, and yet three-fourths of the business done during the session will have been done during the present week

Thursday, both Houses were in session until 11 o'clock, and so again on Friday The Senate had cleared off all the great Appropriation Bills by 3 o clock last evening, and returned them all to the House, with various amendments Two hours and more also had been given to Executive business, in which amidst a contest that sometimes crept thro the key holes, many nominations were rejected, many confirmed, and many submitted

The house devoted some two or three hours upon the Bill for the settlement of private land claim in Louisiana, Missouri Alabama and Mississippi Here, too in the House there was a sharp contest as well there might be millions upon millions of acres of land being involved in this Bill A motion to lay upon the table was lost, 68 to 65 and the Bill was passed by about the same small majority

The sessions were renewed in the House of Representatives this morning where there is most business to do, and public business is most likely to suffer by the introduction of a set of party resolutions against a United States Bank More than an hour was consumed upon these resolutions

The Senate has been the scene of an exciting discussion on the Texas question There has been sparring between Messrs Benton and McDuffie—The fight was a fierce one and Mr Benton has denounced the Executive and his schemes, including the Secretary of State, as guilty of piracy and treason, in clandestinely sending a part of the fleet and navy to the borders of Texas and Mexico"

☞ The following article is going the rounds of the Polk and Texas papers It is published probably, merely to get up a bit of a breeze in favor of annexation by exciting prejudice against England If attentively considered we think the effect will be to lessen the wish for annexation, with the American people

'It is indispensable that the measure of annexation if desired by the United States shall be concluded now The people here begin to wax impatient, and next year will be too late England will get her *step* and after that I am sure no treaty can be ratified in the Texan Congress Galveston will be made a free port, and all the powers at Washington cannot prevail against her

'There are now between twenty five and thirty ships and brigs in this port loaded with cotton, &c. all foreign, only one belongs to the United States If such things happen in the green tree, what will happen in the dry?

"A part of the home squadron is now at anchor in sight within the bar In a few days the remainder, amounting to some ten or fifteen ships and two war steamers, will join them'

[Galveston correspondent.

An explosion took place at the Blackbath Fire near Richmond on Friday There were 22 hands in the pit, of these four were Englishmen and eight colored men The agent of the company (Mr Gilyard) first descended to the pit, being done down as soon as the accident was announced He was accompanied by one of the underground agents Joseph Hall They proceeded in company, about ten yards from the bottom of the shaft when they found Jonathan Jewitt an Englishman, alive, but insensible In consequence of the numerous obstructions in the shape of fallen timbers, &c the place where the accident occurred had not been reached when the last report Whig heard last from the pits about 5 o clock, and of course nothing was known as to the condition of the remaining eleven

WHIG NOMINATIONS.

FOR PRESIDENT,

HENRY CLAY,

OF KENTUCKY.

FOR VICE PRESIDENT,

THEODORE FRELINGHUYSEN.

OF NEW JERSEY.

WHIG CAUCUS—Brewer.

THE Whigs of Brewer one and all are requested to meet at the TOWN HOUSE, on SATURDAY the 22d inst. at 4 o'clock, P. M. to select delegates to attend the Whig State Convention to be holden at Augusta on the 26th inst.

Brewer, June 20. Per order.

FOURTH OF JULY.

WHIG CELEBRATION AT BLUE-HILL.

THE Whigs of Bluehill will celebrate the approaching Anniversary of the birth of our National Independence on the Fourth of July next.

An Oration will be delivered by Gov. KENT, and a FREE COLLATION will be furnished for the occasion for all who may choose to attend.

A cordial invitation is extended to the people in all the towns in the county to attend and join with the whigs of Bluehill in celebrating this great National Jubilee.

Come one, come all, of whatever party, as ample provision will be made for all who may attend.

Per order of the Committee of Arrangements.

Bluehill, June 18, 1844.

☞ SEE FIRST PAGE.

Agreeable Entertainment.

The third elocutionary and musical entertainment by Messrs Murdoch & Johnson, will be given at the City Hall this evening. These gentlemen at their Soiree on Wednesday evening, gave the highest satisfaction to a large and highly intelligent auditory. This evening the exercises will be much varied and they will bring out some of their choicest pieces. We bespeak for the concert this evening a large company, not more, however, for the benefit of those who furnish the entertainment than those who are entertained.

☞ The Portland American and other loco papers are making quite a display of a statement made by a New York paper, that Hon Gulian C. Verplanck has avowed his determination not to support the whig candidates, but to give his vote for Polk and Dallas. Very well, gentlemen, but pray do not keep back the reason for this statement. Mr Verplanck is an out and out Free Trade theorist and will vote for the loco candidates on accout of their agreeing with him against protection, and in favor of free trade. Tell the whole story, gentlemen.

Washingtonian Lecture.

Mr. Kellogg, the famous Washingtonian Lecturer known as the "Buckeye Hunter," will deliver a Temperance Lecture this evening.—The place of the meeting will be notified, by hand bills this forenoon. Our Washingtonian friends and all interested in the noble cause of Temperance should give their attendance to the meeting this evening, and hear an eloquent and forcible lecture upon the subject.

☞ The agent of the Charter Oak has made arrangements by which persons wishing to attend the State Conference at Bath can take the boat here on Tuesday morning as it goes to the Kennebec that day for the purpose of conveying delegates to the Whig State Convention, and be landed at Bath and return by the way of Portland, on Saturday for the sum of three dollars.

☞ The "Liberty Party" State Convention assembled in this city yesterday. We looked in upon them and found about a hundred and fifty persons assembled and listening to a very poor speaker by the name of Clark, while he attempted to vilify and abuse Mr Clay. He repeated the slanders taught him by those who have him in charge. We thought the entertainment very poor.

☞ Potter & Co., at their new apothecary establishment have been importing a choice lot of Cologne water, a specimen of which we have tried, and which leads us to suppose that in the preparation of it the skillful chemist,

"Hath robb'd all flowers, all odours and perfumes"

☞ The long drought in Cuba has materially affected both the quality and the quantity of the tobacco crop in Cuba; the finer kinds being nearly destroyed. The sugar crop will also be a very poor one, it is stated

Vermont.

The Burlington Free Press says that Mr Webster, and probably John Quincy Adams, John Minor Botts, of Virginia, John M. Clayton, of Delaware, and Governor Seward, of New York, will address the great Mass Convention which is to assemble in that city on the 26th inst

Simplicity is the beauty of science, and practicability the great value of invention.

Whig Caucus—Choice of Delegates.

The whig caucus last evening was a very large and enthusiastic meeting. Sylvanus Robinson, Esq. was chosen Chairman, and Mr Horatio Foster, Secretary.

A committee of one from each ward was chosen to nominate a list of Delegates, to attend the State Convention who reported the following list which was accepted:

Edward Kent,
William Paine,
William Arnold,
Hollis Bowman,
Albert Holton,
Henry V. Poor,
Albert Dole,
Samuel H. Dale,
Samuel Morrison,
Abner R. Hallowell,
George W. Ladd,
Cyrus C. Rice,
John S Sayward,
Samuel J. Foster,
Samuel P. Dresser.

The delegates were empowered to fill all vacancies that might occur in their number.

A general invitation was extended to the whigs to attend the great Mass Convention of the Whigs of Maine at Augusta on the 26th inst.

The meeting was eloquently addressed by William Paine, Esq. in a speech of great beauty and convincing power. Two patriotic whig songs were sung in one of which the whole company joined in a hearty and cheering chorus.

The meeting on separating gave three cheers for the whig cause.

From the Portland Advertiser.

Loco Foco Calculations.

Messrs Editors—I chanced to take up the Argus a few days since, and I saw that your neighbors have commenced their old game of brag, in the same spirit that they carried it on and deceived their friends in 1840, by making calculations of the Presidential Elections which are neither founded in fact or probability. For the information of the readers of that paper, permit me to give an extract.

From the Argus of March 1840.

"But we prefer to put ourselves on record, and to show in our judgment, the re-election of Mr Van Buren beyond a contingency. This result we are content to stand by in any manner the gentlemen braggers choose to name. In the following *coup d'œil* of the canvass we place several States in the doubtful column which we fully believe will cast their votes for Mr. Van Buren:

Van Buren.		*Harrison*	
Maine	10	Vermont	7
New Hampshire,	7	Rhode Island,	4
Pennsylvania,	30	Delaware,	3
Maryland,	10	Louisiana,	5
Virginia	23	Kentucky,	15
N. Carolina,	15		34
S Carolina,	11		
Georgia,	11		
Alabama,	7	*Doubtful.*	
Mississippi,	4	Massachusetts,	14
Arkansas,	3	Connecticut,	8
Missouri,	4	New Jersey,	8
Illinois,	5	Indiana,	9
Tennessee,	15	Michigan,	3
Ohio,	21		
New York,	42		42
	218		

Thus stands on record the Argus calculation for 1840; and by way of comparison, please publish the calculation of the same paper for 1844. It should also be preserved for future reference:

From the Argus of June 13, 1844.

CALCULATION.

Democratic.		*Whig.*	
Maine,	9	Massachusetts,	12
New Hampshire	6	Vermont,	6
New York,	36	Rhode Island,	4
Pennsylvania	26	Connecticut (?)	6
Virginia,	17	New Jersey,	7
Georgia,	10	Delaware,	3
Alabama,	9	Maryland,	8
Mississippi,	6	North Carolina (?)	11
Louisiana,	6	Kentucky,	12
Tennessee,	12		
Ohio,	23		69
Indiana,	12		
Illinois,	9		
Michigan,	5		
Missouri,	7		
Arkansas,	3		
South Carolina	9		
	206		

Thus giving the Democratic party *three-fourths* of the electoral votes!"

Now, as the Argus gave in 1840 but 34 votes for Harrison, when the result gave him 234, how many on the same principle, will Mr Clay get in 1844 when the same paper allows 69?

QUERIST.

Mr Polk's connexion with Slavery.

It is stated in this quarter, with the view of injuring Mr Clay, that Mr Polk has no connection with slavery. The following from the Pittsburg American will set this matter right:

"The Polks are among the largest slaveholders in the south. Lucius, the brother of James K, married a lady who owned 2000 of these chattels. James K is also the owner of a great number, whom he hires out through the State, bargaining with the employers for so much a year, generally from $100 to $150, with board, clothing and payment of the doctor's bill. The first is positive—the others depend on the pleasure of the employer."

Mr King of New York, is a bold democrat.—He lately stated in the H. of R that his "confidence in the integrity and constancy of the unterrified Democracy of this country induced him to believe that James K. Polk would receive a large majority of the votes of this Union." Very likely he would, if the "unterrified democracy," as Mr King terms them, had the power to give those same electoral votes to anybody. There's the rub!

Professor Morse, proposes as an alternative to the sale of his telegraph between Baltimore and Washington, to construct a line through to New York from the former city, and to put the entire line in possession of the government, ready for use, for a compensation in conformity with an estimate which he submits. He computes the cost of the telegraph from Baltimore to this city at $95,868.

At the last meeting of the Natural History department of the Brooklyn Institute, was presented a specimen of cubic lead ore, from Rock river, Wisconsin, containing about eight per cent of lead; also a specimen of grey copper ore, from Piscataway, New Jersey.

Later from England.

The packet ship independence, Captain Nye, arrived last evening, from Liverpool, 21st May. Captain Yye had several files of papers sent on board by Wilmer & Co, and supposed he had the latest dates, but on examination found only one later paper, a London evening paper of 20th May, and no late Liverpool papers. Captain N. states that there had been no change in the Cotton Market in the interval between the sailing of the steamer and his leaving, and that the sales had been very small.

The proceedings in the British Parliament on the evening of the 20th, are given in the Globe, but they were of no importance, consisting of mere routine business of no other than local interest. The only allusion to this country was a question put by Mr Hume to Sir Robert Peel, as to the correspondence between the British and American governments with reference to Texas.

Sir Robert said he had no authority to lay on the table any correspondence which might have passed between America and Texas. He thought it objectionable to publish it, because other governments might have done so, portions of correspondence when they did not think it advisable to publish the whole of the documents.

☞ The Warsaw (Illinois) Signal states that the U. S. Marshall had succeeded in arresting Joe Smith, at Nauvoo, and had proceeded with him down the river. Joe showed fight at first, but afterwards concluded that discretion was the better part of valor. Had Joe persisted, the military would have been called out to enforce the law.

Adjournment of Congress.

Congress adjourned on Monday, the 17th inst. The account of the closing scene is too long for our copying them to-day, and we must defer it to-morrow. On Saturday night the house was a scene of riotous confusion, created by some twenty or thirty loco members, who seemed determined to stop all legislation, even to the commission of acts and indulging in conduct that must inevitably bring deep disgrace upon themselves, and upon representative government. Among these furious madcaps and rowdies appears the name of Hamlin from this district.

The frame of the Universalis chapel will be raised this day.

☞ The Washington correspondent of the Boston Courier thus speaks of Henry Clay:

"The philosophy of Mr Clay's character is its intense nationality. His life has been one long apprenticeship to his country. He feels only as an American, and the sphere of his horizon is bounded by national limits. He is the American Genius.

"For this devotion to country—this merging of the individual in the patriot—we could forgive greater personal defects than any ever attributed to Mr Clay. His errors have but injured himself: his virtues have honored and enriched his country."

MARRIED,

At Hampden, by Rev Mr. Bradbury, George Blake, Esq. to Miss Harriet F. Jones; both of Brewer.

[The above notice was accompanied by a generous slice of the wedding loaf in token that the Printer was kindly remembered. We tender our worthy friends a most hearty congratulations.

NEW PRINCIPLES OF PURGATION.
CORNARO'S
Purifying and Preserving PILLS.

THE American public has for a long time been the victim of a false and dangerous system of medicine founded on the practice of LONG CONTINUED AND UNRELIEVED PURGATION. The evils of this old system are of the most widespread and alarming character. They have reached through every vein and artery of our nation.—In every city, and village, and hamlet—in every State and Territory of our vast Republic, will be found those who have suffered, or who are still suffering from the injurious effects of this old system, of whose practical utility the disease, decay, and utter prostration of those who test it furnish the most condemning proofs!

COMMON DRASTIC PURGATION

Scours out the system by the most improper and violent means, and then leave it, weak, low, feeble & debilitated, to regain its strength as best it may.—Sometimes the consequences of this old Purgative practice are worse than mere Debility. Inflammation of the Bowels, Slow Fever, Bloody Piles, and other horrible disorders are produced, simply from the want of some enlivening and preserving power in the medicine employed. Sometimes the digestive organs are deeply and permanently injured by this coarse and unphilosophical practice, leaving the patient AN INVALID FOR LIFE.

The alarming evils and absurdities of the old system of Purgation, have led to the introduction of a new Life-giving Medicine, called CORNARO'S PURIFYING AND PRESERVING PILLS, which are established on this new and only true principle of Purgation, viz:

NO PURGATION WITHOUT IMMEDIATE RESTORATION.

The use of this admirable Purgative remedy strikes a death blow to that abominable system, which by continually evacuating the bowels without any conservative or saving power, so dreadfully and fearfully prostrates and injures the unhappy patient. These Purifying and Preserving Pills are believed to constitute the perfection of medicine, being a UNIVERSAL VEGETABLE PURGATIVE, containing two great remedies combined viz: One remedy to PURIFY FROM CORRUPTION, and another to PRESERVE FROM INJURY AND DECAY.

And for the purpose of attaining the highest degree of purity in the preparation of these Pills, Dr. Bradlee has, at a vast expenditure of time and money, invented and patented at Washington, a chemical and philosophical apparatus for distilling and refining vegetable extracts, called

THE SEVEN-FOLD FURNACE,

A powerful and novel machine—having Seven Fires and Seven Alembics, with distilling, condensing, and evaporating fixtures of a new and ingenious contrivance, capable of obtaining more than seven times the ordinary purity of any vegetable extract heretofore used in compounding medicine. The Baliamic and Preserving power of these Pills is also, by this invention, highly purified and refined, and so mingled with the operative medicine, that it repairs all the injuries created by Purgation as soon as they are caused, and strongly fortifies the system against future corruption and decay.

Let the public be no longer deceived by the advertisements of the "one remedy" doctors, who show their entire ignorance of the organic laws of the human system by supposing that a medicine which purges merely, without renovating or preserving, can be a perfect remedy. For it is a fixed and immutable law of our being that there should be, in no case, Purgation without immediate Restoration; and hence it follows, and is proved to demonstration, that all Purgatives which DO NOT possess a saving and preserving power, are injurious and injurious only—and possess NOT ONE REDEEMING QUALITY.

The whole theory of common drastic Purgation is based upon unnatural and absurd laws, and they who follow it fall victims to their own folly, and too late repent their temerity.

☞BEWARE OF UNRELIEVED PURGATION! Purge and Preserve, or do not attempt to Purge at all.

☞The celebrated PURIFYING AND PRESERVING PILLS, purify the body from corruption and preserve it from injury and decay by a single operation. They are a Universal Vegetable Purgative, of sovereign use in all diseases of the human system in which purgation is required, particularly in Jaundice Indigestion, Dyspepsia, Eruptions of the Skin, Scrofula, Piles, Costiveness, Bilious Disorders, Liver Complaint, Fevers, Nervous Disorders, Inward Weakness, Cholic, Dysentary, Worms, Gout, Rheumatism, Female Complaints, Depression of Spirits, Debility of System, Fits, &c., &c.

Dr. D. Jayne's FAMILY MEDICINES.

JAYNE'S EXPECTORANT.

THIS invaluable medicine is daily effecting some of the most astonishing and wonderful cures that have ever been known. All who have used it for Asthma, Coughs, Spitting of Blood, Whooping Cough, Croup or Hives, Consumption, Chronic Pleurisy, Hoarseness, Pain and Soreness of the Breast, Difficulty of Breathing, and every other disease of the LUNGS and BREAST, can and do attest to its usefulness. BRONCHITIS, a disease which is annually sweeping thousands upon thousands to a premature grave, under the mistaken name of CONSUMPTION, is always cured by it. The usual symptoms of this disease, Bronchitis, are Cough, Soreness of the Lungs or Throat, Hoarseness, Difficulty of Breathing, Asthma, Hectic Fever, a Spitting up of Phlegm or Matter, and sometimes Blood. It is an inflammation of the fine skin which lines the inside of the whole of the wind tubes or air vessels, which run through every part of the Lungs. The Expectorant immediately suppresses the Cough, Pain, Inflammation, Fever and Difficulty of Breathing, and produces a free and easy expectoration, and a cure is soon effected.

It always cures ASTHMA. Two or three large doses will cure the CROUP, or HIVES, of children, in from 15 minutes to an hour's time. It immediately subdues the violence of WHOOPING COUGH, and effects a speedy cure. Hundreds who have been given up by their physicians as incurable with CONSUMPTION, have been restored to perfect health by it.

If this Expectorant be given in the commencement of PLEURISY, INFLAMMATION OF THE LUNGS, or in acute RHEUMATISM, in doses sufficiently large, so as to cause a little nausea for some time, going to bed and covering up warm, it will produce perspiration, and subdue these affections at once.

Tonic Vermifuge.

WORMS IN CHILDREN. Of all diseases to which children are exposed, none are so fatal to them as WORMS. Unfortunately, children are seldom free from them, and as they imitate the symptoms of almost every other complaint, they often produce alarming effects without being suspected. They are not only a cause of disease themselves, but by their irritation aggravate all other diseases, wandering from one part of the body to another, winding themselves up into large balls, and obstructing the bowels, and frequently the throat, causing convulsions, and too often death. The desired remedy will be found in Dr. JAYNE'S TONIC VERMIFUGE, which will very soon destroy the worms, and invigorate the powers of digestion so as to prevent a return of them. PRICE 50 cents.

JAYNE'S CARMINATIVE BALSAM.

This is one of the most efficient, pleasant and safe compositions ever offered to the public, for the cure of the various derangements of the *Stomach* and *Bowels*, and the only article worthy of the least confidence for curing CHOLERA INFANTUM or SUMMER COMPLAINT; and in the above and following diseases, it really acts like a charm, viz:

Dysentery, Diarrhea or Looseness, Cholera Morbus, Summer Complaint, Cholic, Griping Pain, Sour Stomach, Sick and Nervous Headache, Heartburn, Water-brash, Pain or Sickness of the Stomach, Vomiting, Spitting up of food after eating, and also where it passes through the body unchanged; Want of Appetite, Restlessness and Inability to Sleep, Wind in the Stomach and Bowels, Hysterics, Cramp, Nervous Tremors and Twitchings, Sea Sickness, Faintings, Melancholy and Lowness of Spirits, Fretting and Crying of Infants, and for all *Bowel Affections and Nervous Diseases.*

PRICE 50 cents.

Hair Tonic.

NO EXCUSE FOR A BALD HEAD. Since the important discovery of Dr JAYNE'S HAIR TONIC, every one may, if they choose, preserve their hair from falling off, or if already bald, may, with certainty, have their hair restored again by a faithful and persevering application of this valuable HAIR TONIC.

Please to read without prejudice the following communication, which, in addition to hundreds of others equally respectable, should remove the doubts of every reasonable person of the uniform and singular efficacy of JAYNE'S HAIR TONIC.

HAMILTON, Feb. 15, 1840.

Dr. D. Jayne—Dear Sir: I cannot say my hair is restored, but I can say that it appears to be in as rapid a process of restoration as could reasonably be expected. I had not finished the first bottle, before a decided change was manifest over the bald part of the head, to which it was applied. A new growth of fine glossy hair, much like that of an infant, appeared, and has continued to increase, and I have had it cut two or three times. I have recently commenced upon the third bottle, but have been a good deal irregular in the use of the Tonic from the first, and from this cause I apprehend the effect is at present less than it otherwise would have been.

I began the use of the Tonic with little or no faith that it would ever be successful on my head, though I felt entire confidence in your statements of what it had done for others; and I was as much surprised as delighted when I saw the effect. You recollect the appearance of my head when in your office. I assure you the hair has been nearly, if not quite, an inch long at the times I have had it cut, on those parts which were nearly destitute of any when you saw me. It was, however, very fine, though quite thick. I am flushed with sanguine hopes of final success, in the diligent use of your Tonic, which, amidst all the hair humbugs which have been advertised in the papers, I am constrained to believe is what it claims to be, and that it will make the hair grow, and no mistake, at least on some heads

Jayne's Sanative Pills.

These Pills are an excellent, mild and safe purge at all times, and are exceedingly useful in Dyspepsy and obstructions of the Liver. Persons taking them can eat and drink as usual, without fear of injury; and, what is of infinite advantage, making the use of mercurial preparations, so frequently used in derangements of the stomach and liver, unnecessary.

These Pills may be taken at *all times*, and are beneficial in nearly *all diseases*. They have long been a favorite prescription of the proprietor for all obstructions of the Liver, Spleen, Kidneys, Uterus, and all other organs of the body—Inflammatory, Intermittent, Remittent, Bilious, and every other form of Fever—Jaundice and Liver Complaint. For Dyspepsy they are really an invaluable article, gradually changing the vitiated secretions of the stomach, and producing healthy action in that important organ. They are very valuable in diseases of the Skin, and for what is commonly called "impurity of the blood"; also for Female Complaints, Costiveness, &c. &c.—and in fact every disease where an Aperient, Alterative or Purgative medicine is required.

☞Four fifths of the numerous and distressing cases of DYSPEPSY POSITIVELY CAN BE CURED by a persevering use of this valuable SANATIVE.

They are expressly prepared to be used as an Aperient, when purging is necessary, while using his Expectorant, and for the removal of obstructions in the Liver, which are often attendant on some of the diseases of the Breast.
